## Murano Jewellery

Murano glass is handmade only on the island of Murano in the lagoon north of Venice and has been the centre of Venetian glass making since 1291. Today, the glassmakers still use the same techniques to produce exquisitely beautiful glass.

Making the stunning glass beads for jewellery demands the utmost skill and expertise. Clear glass is melted, rolled and shaped while gold or silver leaf is added to the still soft glass. Afterwards more glass is added to completely cover the metal leaf before the bead is finally shaped. The glass can be clear or coloured and has a glowing vibrancy and intensity.

My jewellery, Muranomagic, is designed and handcrafted from genuine Murano glass which is complimented by glittering Swarovski crystal beads and sterling silver. Each piece of jewellery is unique and can only be bought from my website where you can find a wide collection of unusual pendants, earrings, bracelets and matching pendant and earring sets. There is also a very pretty bridal collection and an 'extra special' collection of more unusual jewellery made from special glass beads I have found on my visits to the Island of Murano.

Every piece of jewellery comes in a complimentary drawstring pouch and will make a superb gift for any occasion and especially at this festive time of year. My jewellery can be viewed and purchased through my website [www.muranomagic.co.uk](http://www.muranomagic.co.uk).
