Quality selection available at Van and Truck Rental

Offering a fantastic selection of quality used commercial vehicles for sale or rent, Midland Van and Truck Rental Ltd could have just the solution for your company or individual transport needs.

The company, which is owned by Ian Wildman and Dave Morgan, has recently opened to a flurry of success, thanks in part to the duo's excellent background in commercial vehicle sales.

Both Ian and Dave have worked for Mercedes Benz's prestigious commercial vehicle division, so they have an excellent knowledge of quality commercial vehicles, and understand how best to match each customer's unique requirements to each vehicle.

For one off jobs, or short term use, rental vans can prove to be the sensible financial option.

Depending on the size of your haul, rental vehicles are available from as little as £30

per day for a small van. Panel van rental starts at £55 per day and Luton vans are also available from only £60 per day.

If your needs are more long term and you are looking to buy a van/truck Ian and Dave typically have upwards of 25 used commercial vehicles in stock at any time.

If you have a specific vehicle in mind, or you require a vehicle that they do not have in stock, Ian and Dave also have access to a wide selection of used vehicles – available through a string of professional contacts throughout the UK – with delivery of the vehicle taking as little as 24 hours.

Holders of a consumer credit licence, Midland Van and Truck Rental can also help you arrange finance for your vehicle – so remember to ask for details when calling the dealership.

For further details contact Midland Van & Truck Rental Ltd on 01675 475580; call Ian on 07827 016133; or call Dave on 07774 435016.
